

Kelley's Cause

A Friend in Need

A tragic accident has hit a Keene, NH 20 year old young woman in the prime of her life. A 2004 graduate of Keene High School, Kelley Goddu was enjoying the summer off from Syracuse University when she broke her neck, injuring her spinal cord and is now paralyzed. Her prognosis: A LONG recovery and rehabilitation. Kelley has undergone spinal reconstruction in her neck and has been flown to Shepherd Rehab Center in Atlanta, GA to begin a 100 day rehab process.

The daughter of Diane & Allen Goddu, sister of Kimberly & Danielle, a college junior majoring in Environmental Design, Kelley has friends all over the country. All of these things make Kelley who she is, but most importantly - she is a young woman suddenly faced with many challenges. This event has devastated Kelley, her family and her friends. The recovery is financially overwhelming with expenses no family is prepared for and we are asking for your support.

Your help, financial or otherwise will go toward:

adaptive clothing ♦ utilities ♦ ramps ♦ equipment ♦ travel to & from the rehab center
extra medical and therapy costs ♦ modifications to her home ♦ and so, so much more...

Please help Kelley and her family prepare for the next step in her life.

Financial contributions are not tax deductible but they are needed and appreciated. Materials and labor for home modifications or otherwise would most certainly be welcomed by the family.
